

PAVER CONNECTION

Introducing Our New Mega Cobble

EXPANDING PRODUCT LINES

by *Brian McThorn*

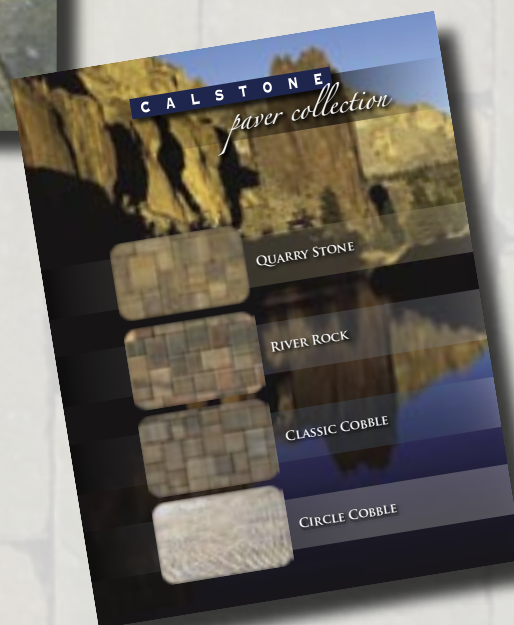

Complimenting our Classic Cobble and River Rock product lines, Calstone brings a new dimension to these popular paver styles. The new Mega sized 9"x12" paving stone adds expanded design opportunities to your hardscape projects.

Available in all seven Classic Cobble and River Rock colors, this larger paver opens up new laying patterns and wider flexibility of the random cobble stone feel.

Contact your nearest authorized Calstone distributor for samples and product catalogs. Should you have any questions regarding the new Mega sized paving stone or any other quality Calstone product, please contact your Calstone Team found on the back of this newsletter.

NEW PAVER COLLECTION CATALOG

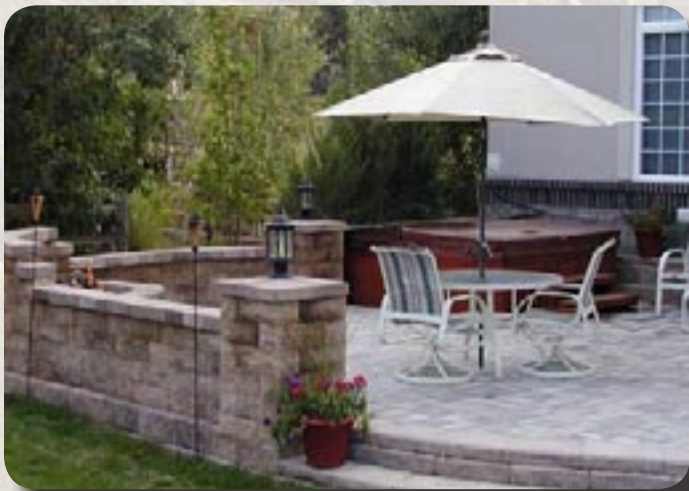

Our new Paver Collection catalog is now available. Visit one of our many authorized distributors, or visit our website at www.calstone.com to request a copy today. For larger quantities, contact any of our four manufacturing service centers or your Calstone team representative today.

COURTYARD WALLS

The Perfect Compliment

Calstone's new Allan Block Courtyard Collection wall compliments any paving stone installation. With this free standing wall system, you can create intimate seating areas, hardscape dividers, post columns and stem walls, entry monuments, barbecue centers, ponds, fire pits; the list go on and on. Easy to work with, light weight, versatile units make building stone walls a snap. Blend the timeless look of natural stone walls with the strength and beauty of Calstone' innovative products.

Visit the Segmental Retaining Wall (SRW) section of our website for literature, technical specifications, and installation guidelines for this perfect compliment to your next hardscape Calstone project.
